# Agenda

- ① title
- ② Headings
- ③ Paragraph
- ④ Formatting tags.

## title tag

The title is what is displayed on the top of your browser when you visit a website and contains title of the web page that you are viewing

It is written in head tag.

It provides a title for the page when it is added to favorites

It displays a title for the page in search engine results.

# Heading Tags

Headings are defined with the `<h1>` to `<h6>` tags

`<h1>` is the most important

`<h6>` is the least important

Search engines use your headings to index the structure and content of your web pages

# paragraph

Paragraphs are define with the  $\langle p \rangle$   
tag

# Formatting tags

<br>

<hr>

<b></b>

<strong></strong>

strong also use for bold text, it use when we want to importance text

<i></i>

<u></u>

<sup></sup>

<sub></sub>

<mark></mark>
