Control Instruction

- ① Decision Control
- ② Iterative Control

Iterative Control

while (condition)

{

statements

}

True

while
block

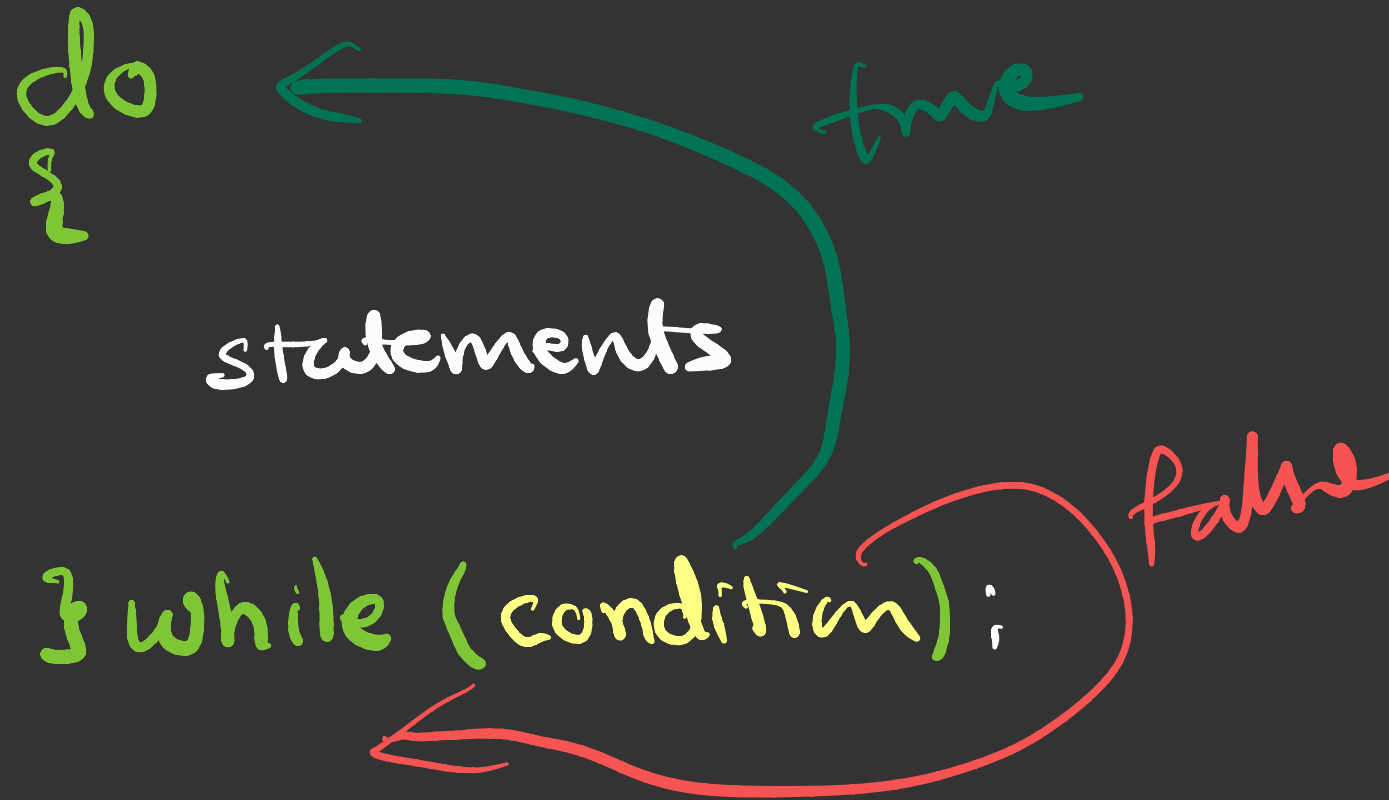

do
{

statements

} while (condition);

true

false

```
for(      ;      ;      )
```

```
{
```

```
    statements
```

```
}
```

break

The break statement terminates the current loop or switch statement and transfers program control to the statement following the terminated statement
